Advantage Health Centers—Detroit, MI

CDFI Investment Enables New Health Care Facility

After receiving a federal grant, Advantage Health Systems (AHC) fell $300,000 short for renovations of a much-needed healthcare facility along Michigan’s 8 Mile Road. Capital Impact, a CDFI working toward revitalizing Detroit, provided financing to fill the gap. Advantage Family Health Center opened in 2013 and provides services to a traditionally low-income, medically underserved community.

“We couldn’t have done it without Capital Impact. They provided the last piece of critical funding.”

Joe Ferguson
Executive Director, AHC

Impact

• Increased healthcare access for 20,600 patients
• Provides front-door treatment at no cost to uninsured or individuals that qualify
